

Find a provider

Finding a network provider on **umr.com** or the **UMR app** has never been easier

1

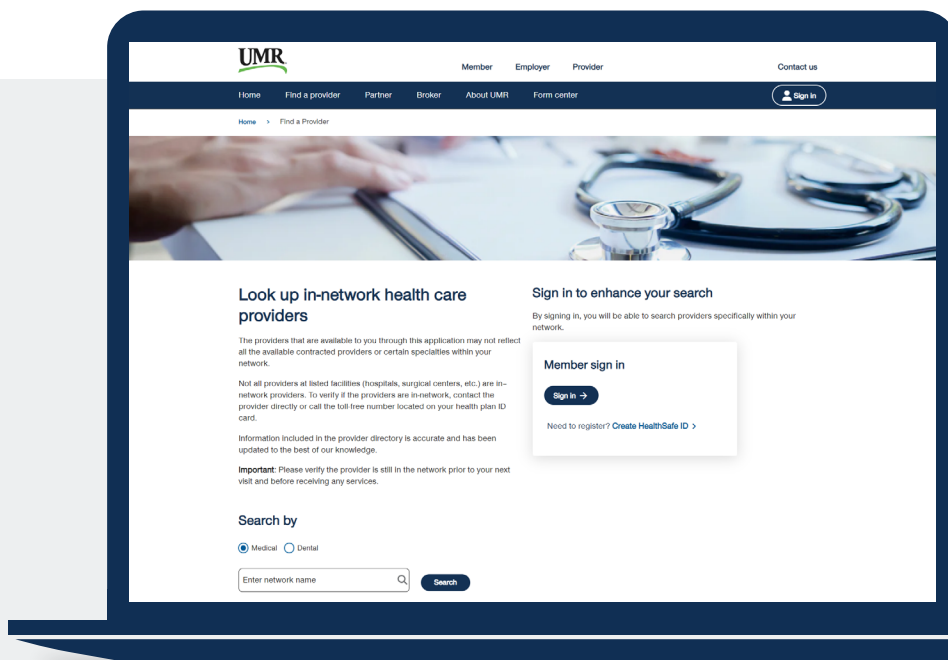

Go to **umr.com** and select **Find a provider**

2

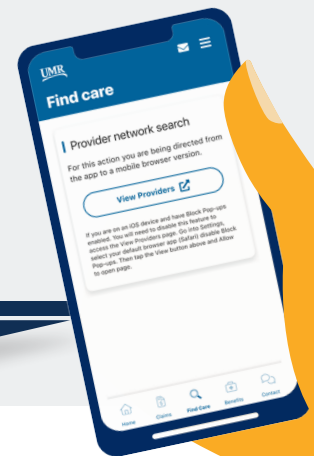

Look for the name of your provider network on your **ID card**

3

Begin a search for your provider network using our alphabet navigation, or type the name into the **Search** box

Find a provider on the go. Sign in to the **UMR app** and select **Find care**

Don't have your ID card handy?

That's OK. If you sign in to **umr.com** or the **UMR app**, you will be directed to your in-network provider listing.
