

2026 Preventative Drug List

AffirmedRx is committed to making healthcare more accessible by supporting your long-term health and wellness. This list provides examples of preventive medications that may be covered under our plan to help keep certain conditions from developing or coming back.

These medications are grouped into categories based on medication type. This is not all-inclusive. Coverage may vary by plan and may not apply to every dosage form or strength of a listed medication.

This list is reviewed periodically and may be updated based on clinical guidance, availability, and changes to plan coverage. Some medications may require you to try a generic alternative before a brand-name drug is covered.

How to Use This List:

- Medications are grouped into broad categories.
- Generic medications appear in lowercase.
- Brand-name medications appear in standard capitalization.

Note: This list is for informational purposes only and does not guarantee coverage. For details on your specific coverage, check your plan benefits or contact your healthcare provider.
